Case No. 1:17-md-2800-TWT

Mark Hartman

1171 Helix Village Ct  
El Cajon, CA 92020

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

Your honor, an insignificant amount of money - or, worse, services which most of us have already purchased from competing providers simply because Equifax has been found to be untrustworthy - is less a "settlement" than it is a declaration by the Court to consumers that their rights and damages are less important than protecting Equifax from the consequences of its actions.

If we consumers misbehave, the law is quick to hold us to account. Why should it not be so with Equifax?

This settlement is completely inadequate. This business was entrusted with our sensitive personal information, was extraordinarily negligent and lost it, and under the terms of the settlement they would practically shake it off like an innocent mishap. It is in no way punitive and sets a terrible example for future data breaches. This company should actually feel some pain for what they caused.

Personal note to The Honorable Thomas W. Thrash Jr.

It is unfair for a company such as Equifax to not be able to pay us our fair share. Lawyers should not be making more than the plaintiffs in this case. We are held hostage by these credit reporting agencies to get mandated things as auto insurance. Their digital policies should have been enforced or should be constantly being monitored for such information to be leaked out. This settlement is not "hurting" Equifax as it has "hurt" the many millions of individuals whose personal information was stolen. We trusted Equifax to keep us safe. They did not. And we have no option on where are credit information goes. We are hostages.

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☒
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I had my identity stolen and their offer of credit monitoring does nothing. They have our onfo not because we want them to but we have to tolerate it.

Personal note to The Honorable Thomas W. Thrash Jr.

Year after year, for the past 10 or so years, we continue to hear about massive banks, retail chains, and now credit bureaus being hacked, and our personal information stolen. These companies make billions annually but simply receive a slap on the wrist while consumers endure a nightmare trying to get their credit repaired and debts erased due to identity theft. Now, you want to allow a company that has EVERY BIT of our personal information get off with offering credit monitoring or \$10 per person?! They make billions selling our data to other companies and that is all they are punished for? A message needs to be sent that the citizens affected by breeches are not going to stand for it anymore! I ask you, Honorable Judge Thrash, to be the voice of a nation that other corporations take note and be proactive in the protection of our citizen's personal information, or do not do business!

Case No. 1:17-md-2800-TWT

Elizabeth Russ

624 Rushton Rd  
Cincinnati OH, 45226

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

Honorable Thrash,

It is impossible to express the hardship that this unnecessary breach has caused me, my family and the millions of other hard working people in this country. Please look at this carefully and at least give us the satisfaction of knowing that the original agreement was honored.

Thanking you in advance,

Elizabeth Russ

Personal note to The Honorable Thomas W. Thrash Jr.

Your Honor, the penalty as laid out does respect the degree of damages caused by Equifax, nor the gross negligence Equifax had in the handling of sensitive personal information of class members. Due to the rise in consumer data breaches many class members already have credit monitoring as a result of past settlements. The earmarked portion for cash awards if divided evenly among class members would be less than a dollar per person. Additionally the court should recognize that allowing Equifax to offer credit monitoring services as restitution creates a perverse incentive. Equifax itself offers monitoring services and would be the beneficiary of future data breach settlements that followed the precedent of this settlement. Note the proposed monitoring would be provided by Experian who themselves are settling a data breach (case number 8:15-cv-01592).

Steve Lockwood

1010 Meadow Drive, Owosso, MI, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

The expected funds per person seems to be inadequate given the yearly income of this large corporation.

Personal note to The Honorable Thomas W. Thrash Jr.

It is my understanding that the settlement offer payments are going to be less than \$10 per person, instead of the \$125 to \$250 as advertised. I believe the breach led to my Social Security number to be stolen and used by someone to apply for credit. It cost me several hours of my time to notify the three credit reporting agencies of this use and place warnings on my account. I believe that the settlement offer would be a slap on the wrist for a company that makes several billion dollars a year selling consumers data without their consent - and that they should not be allowed to buy their way out of it with a bait-and-switch settlement offer for a fraction of the original amount.

This settlement is a farce and is completely inadequate. So many times companies that we entrust our security to take it for granted like they own it. They treat it with cavalier attitudes and when it is mishandled and lost they act like it is no big deal. "Oops, we're sorry. We'll do better." The problem is that they are never forced to pay adequately so obviously they do nothing to improve. It is time to tell them that we take this seriously!

Thank you,

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

Elaine Day

125 North Davis Lane apartment 108, DeFuniak Springs, Florida 32433

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

As an American consumer, everything in my life from housing to car insurance rates and more is dependent on my credit rating, which is determined by the very entity that "lost" my data. As someone with existing credit monitoring from a party I trust, I find the settlement offering for jeopardizing my credit and that of millions of others absolutely abysmal. I don't want to get rich from the theft of my data by any stretch, but I do think that fair compensation not only helps those whose data was stolen, but sets a precedent that lax security in a world filled with online threats from hackers is unacceptable and will have repercussions. Thank you for your time and consideration.

Personal note to The Honorable Thomas W. Thrash Jr.

I believe that this settlement is not fair and extremely inadequate in light of the damage that has been done to myself and other members of the class action. Our records and personal information were taken for granted, treated with disrespect, and unprotected. The penalty for this is basically a slap on the wrist which is unconscionable. I hope that you reconsider this decision and realize the effect their actions have had on millions of people.

Personal note to The Honorable Thomas W. Thrash Jr.

Equifax has to be held accountable for the damage they've done. People have suffered because of their ignorance and stupidity in not keeping accounts safe. Forget this slap on the wrist crap. EVERY person whose account has been endangered because of their lax security should be paid AT LEAST \$150 and those who have lost money because their account information has been used fraudulently should be reimbursed IN FULL for all damage done to them, including an amount for any future damages. Equifax is SUPPOSED TO BE a reputable company who is SUPPOSED to protect millions of people's sensitive information. THEY FAILED BIG TIME!!! And it's us, the people whose information was scattered on the wind, who should be reimbursed for their failure. If this means that Equifax loses BILLIONS OF DOLLARS, so be it.

Case No. 1:17-md-2800-TWT

Mark Moore

3008 Forest Dr. Seneca SC 29672

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☒
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I may attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I believe it is time for these Entities to to take full responsibility for the safekeeping of our records and to be made liable for the harm that these Breaches have caused millions of people to incur at no fault of their own

I object to this settlement, on the grounds its terms are:

Personal note to The Honorable Thomas W. Thrash Jr.

Equifax is a huge company. The breach was significant and effected many of us. The information that could be obtained by dishonorable people from this breach is a grave breach of privacy and could impact those of us who were effected. The amount offered in settlement for this breach is a drop in the bucket for this company and doesn't make up for the damage that could have been incurred, and for the inconvenience in having to attempt to make sure that our data is safe.

I object to this settlement, on the grounds its terms are:

- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

This company makes billions of dollars selling my (and most people's) personal data without my consent. Now they've been breached and want to settle for a ridiculously small sum. The amount I would receive as a settlement would not help in the least if my identity is stolen due to this company's lack of security and I feel they are being downright greedy profiting off of the public but not being willing to make proper restitution when they fail to protect data they got from that same public for free! Since they are unwilling to do it themselves, it is up to you to make sure that the people who have been affected by this get a reasonable settlement. Thank you.

Personal note to The Honorable Thomas W. Thrash Jr.

This settlement is inadequate to protect claimants who have yet to become victims of ID theft. As you know, criminals can misuse stolen ID data at any time, including decades from now. Credit monitoring services are not a reasonable because I already froze my credit files, and I monitor my own credit reports. Credit monitoring also does not prevent other forms of ID misuse such as fraudulent tax filings theft of mail delivered to my home. These are significant crimes that are enabled due to Equifax's mishandling of my full name, SSN, birthdate, and home address. The cash compensation of up to \$125 is unreasonable because it requires me to have credit monitoring services and is under-funded to \$31 million for up to 148 million claimants.

Equifax has inserted itself into the credit process which we all had to accept without any particular say, however, now that their safety of our information has been compromised they have chosen to appear as if Equifax is something we all opted into and accepted openly, as if their service is a charitable one.

They became the authority on who gets what credit but they failed to keep that data safe and now are choosing to pay a pittance for our most important data that, again, they inserted themselves into this process to gather and now they are failing to accept responsibility for their failure to protect that vital information.

Case No. 1:17-md-2800-TWT

ALAN BALDWIN

1401 Wewatta Street #405, Denver, CO, 80202

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☐ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

This settlement may have appeared appropriate, but this was an unprecedented breach. I doubt anyone expected nearly as many people to file claims, even though nearly half the US was affected. The amount of damage that the breach could cause on an individual is so large that many more individuals than expected feel that they need to be compensated for it, and the result is that the compensation is extremely low. A company that has this much control over our lives has caused immense damage, and we need to be compensated for it.

Your Honor,

Credit is one of the financial foundations that you MUST have in order to live in this society.

A hand shake and a persons word means absolutely nothing therefore to have a credit breach in one if the most largest credit monitoring agency is unexceptionable.

Thank you,

I can't believe the change big corporations get the courts to agree to . I feel violated by these financial giants who I have no say in what they can and do with my information - they need a stronger message about what type of behavior is expected when dealing with confidential matters. They need to be punished financially as it is the only thing big corporations and banks understand. Otherwise they will do it again and again.

A company that is responsible for holding the utmost data security and be responsible for accurate credit reporting to ensure consumers have access to the things they need do not deserve to have just a slap on the wrist. Personal note to The Honorable Thomas W. Thrash Jr.

Allowing Equifax to settle for less, even if just \$1 dollar less, is an insult to the people of this country. That company's credit score affects what every adult is allowed to do in life, From credit card rates, to purchasing a home and car loans, but they don't have to be held responsible if they mishandle our information? They are allowed to be lax on security to have this happen in the first place and that's just okay? If a company holds the power to dictate what we can and can not do with our lives based on the information they hold the VERY least they could do is keep it on lockdown or pay in full for the mistakes made. They owe that to the public, please consider this and the American people when you decide on a settlement. Allowing less shows the country that it's okay for a big company to screw us over publicly.

Both my husband and I had our personal information stolen by Equifax's lack of due diligence. Equifax had an obligation to protect my data which they collected. I did not give this information to Equifax, they collected it as part doing business and had an even greater to guarantee security of that information. A stronger message needs to be sent to companies that collect private information than a mere \$5-\$10 per person in compensation.

The settlement is unfair. Equifax didn't do their best and there is no due diligence in place to protect my data. Harsh punishment should be imposed to them.

I expect any collector of data about my creditworthiness and has personally identifiable information that when they do not take appropriate care to protect my information are held accountable. Equifax, through their carelessness has exposed my data to whomever wishes to buy it and exposes me to the risk of being impersonated and ruining my creditworthiness without my awareness until I applied for credit. They have a responsibility to do everything to protect my data and in this breach they have not met the expectation so they must be held to a remedy that makes us whole!

We as Americans expect that our confidetal in for Marion must be kept securely without exception. Giving these violators a slap on the wrist is despicable when their net worth is a million + dollars compared to ours. Without a substantial financial judgement against them, it will happen again in the near future.

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

Steven Mullins

2502 Morning Glory Drive, Richardson, TX, USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I never gave permission to Equifax to store my information and make a profit off of it. Then by their own negligence, they allow a criminal to steal information that can be used to attack me financially, even years after the fact. A few years of credit monitoring helps, but does not prevent a future event from happening. Then if or when it does happen the time and expense personally expended to fight it and get refunded are on me and will be more costly than the \$125 or less cash offer.

Best Regards,

Steven Mullins

Personal note to The Honorable Thomas W. Thrash Jr.

The proposed amount is a pittance. It will not teach EquiFax to be more responsible and will not compensate me or anyone else for the time spent in freezing credit reports and checking credit reports.

The Equifax settlement is an objectively bad deal. It is not fair. It is not adequate. It is entirely unreasonable. What Equifax has put us through is a nightmare.
